## A Summer Story

The sound of trickling water from a nearby lake, a light warm breeze and small tweeting birds. All are they part of the summer sound and for the most only sounds we hear when we are mindful and attentive. With the small havens in this catalogue, we hope to inspire you to make time for you and make the wonderful summer months a part of your own story.

In 2003, when we first introduced Christine Headwear to you, our collections consisted of both silk and bamboo headwear. Having just celebrated our 20th anniversary we now go back to the roots and are extremely proud to be offering you yet another silk series. This time we do so in collaboration with the Danish company, Bella Ballou. Read more about this and see the beautiful turban and scarf series on page 4-9.

The House of Christine catalogue is always your source of inspiration on both styling, new colours and designs. The new Viva line is no exception. On page 42-43 we show you how to wear it the Viva-way with a cool range of Grab & Go turbans.

Unique and exquisite are the key words on the new Boho Spirit collection. Here you'll find beautiful turban volume and lots of Mix & Match designs. A romantic and feminine series of unique head coverings that will add lots of colour to your summer.

Choosing headwear for the first time can be overwhelming – “what do I need, how will I look and how will it make me feel”? Headwear comes in many shapes and forms and your choice should make you look and feel like the person you are by heart. With this you will find the courage to face your new everyday life – now with a beautiful and feminine, turban silhouette.

Welcome to our headwear universe, dear friend of Christine. We hope to inspire you to try new models and stylings and to make your turban-story into *'your own kind of wonderful'*.

# Bamboo Collection

CHRISTINE HEADWEAR

The bamboo-viscose products from Christine Headwear are made in the unique and functional Caretech® Bamboo quality.

Bamboo-viscose fabric has many fantastic features and the soft and comfortable quality is actually used to form the largest part of the Christine Headwear product range.

The Caretech® Bamboo is supremely soft, silky and luxurious to the touch. It is breathable and thermo-regulating so you remain comfortable and dry during both summer and winter temperatures. The fabric is more moisture absorbent than cotton and quickly removes the moisture from the skin and releases it.

Further, the special Caretech® Bamboo products are extremely gentle to wear and highly suitable to use against sensitive skin.

# Underwear Collection

CHRISTINE HEADWEAR

The Christine underwear top is a unique and comfortable underwear piece developed with both intelligent features and materials.

Comfort in clothing, underwear in particular, is often dictated by your body temperature. It can, however, be difficult to maintain a balance at 37.5-degrees when our body goes through changes, either due to surgery, treatment for critical illnesses or when suffering from alopecia.

It can be hard to control the hot and cold flushes that makes us so uncomfortable, but this top will help you! The 37.5® Technology used in the fabric material helps control your core temperature, regulates it and will keep you in the optimal 37.5-degree comfort zone at all times.

For further comfort and convenience, we've constructed the top so you can get dressed without having to pull it over your head, which can be difficult when having gone through a breast or under arm surgery. The neck line is beautifully placed and has an elegant and feminine silky satin trim.

A truly comfortable and practical top made particularly for your wellbeing.

## Soft Lift Hat

CHRISTINE HEADWEAR

The Soft Lift Hat from Christine Headwear is a revolutionary design protected headwear piece, which will provide the perfect fit and lift under your wigs and headwear.

A small hat that will make a big difference to the look and feel of your head coverings, as it gently lifts and adds a fine, natural volume to the back of the head.

The soft, breathable and light 37.5® fabric material will ensure you stay comfortable as it helps the covered area maintain an optimal 37.5-degree temperature - regardless of how you choose to cover it.

To make this clever little lift, a light mesh pad has been inserted under a soft top layer. This will add a beautiful rounded shape to the back of your head whilst leaving you comfortable, feeling nothing but carefully and gently protected.

The results are nothing but fantastic and you'll find your headwear and wigs will get a brand new, fine and elegant look to it.

*A note from Pamela*

*Hi everyone!*

In September I took a trip to Denmark to meet my friends at House of Christine. I had a wonderful day and got to try on all the new models for this season. I had to pick just a few favorites, which was hard, but here you have my little spring/summer top 3.

♥ **Shakti** is my all-time favourite. I mainly work outside and wear this model most days. I find the material soft, breathable and light, even on hot Italian days.  
1 - 1418-0912 Shakti Turban – Printed

♥ The **Juvela** model is so sophisticated and fun. I love the headband with the large decoration and the fact that I can mix it with my other turban models.  
2 - 3042-0918 Juvela – Boho Turban Set – Printed

♥ This new **Avalon** model is so beautiful, I really love it! The new headband design is so nice and the soft pink colours are gorgeous, I just love all shades of pink.

37.5® TECHNOLOGY

Comfort in clothing is dictated by our temperature and the humidity next to our skin, known as our microclimate. When our microclimate balances at 37.5% relative humidity and our core temperature balances at 37.5 degrees, we are in the optimal comfort zone.

37.5® Technology headwear and clothing helps control the core temperature by accelerating the movement of moisture vapour before it can turn to liquid sweat.

If we get warm and damp, the 37.5® products will dry faster – up to 5 times faster than a similar product without 37.5® Technology. And, when moisture is removed from our headwear and clothing, we stay warmer when it's cold and cooler when it's warm.

The active particles used in 37.5® are derived from natural sources such as coconut shells and volcanic minerals. A combination of these special sources and the product features makes this a rather unique and intelligent headwear and clothing line.
